SERVICES & CAPABILITIES

WHO WE ARE

Practical fire protection support

WARD Fire Safety provides fire alarm and life safety services for facilities and projects across Waterloo Region, the Greater Toronto Area and surrounding Ontario communities. We focus on clear communication, careful field work and useful service documentation.

OUR SERVICES

From inspection through corrective action

Fire alarm inspection and testing | Fire alarm verification support | Troubleshooting and repairs | Emergency lighting and exit signs | Fire alarm installation support | Monitoring coordination | Door holder and related interface testing

SERVICES & CAPABILITIES

TECHNICAL APPROACH

Built around standards and site conditions

Services are planned with reference to applicable requirements, including CAN/ULC-S524 for installation, CAN/ULC-S536 for inspection and testing, and CAN/ULC-S537 for verification. Scope and compliance requirements are confirmed for each assignment.

SYSTEM EXPERIENCE

Familiar with major Canadian-market systems

Our technical work includes equipment from Mircom, Edwards / EST, Notifier, Honeywell, System Sensor, DSC and Stanpro. System-specific service is subject to equipment access, required training and site conditions.

WORKING TOGETHER

INDUSTRIES WE SUPPORT

A range of building environments

Multi-unit residential | Commercial offices and retail | Industrial and warehouse facilities | Institutional and educational buildings | Construction and renovation projects

SERVICE COVERAGE

Regional support across Southern Ontario

Waterloo, Kitchener, Cambridge, Guelph, Toronto, Vaughan, Markham, Richmond Hill, Mississauga, Brampton, Oakville, Burlington, Hamilton, London and nearby communities. Project availability is confirmed during scheduling.

WORKING TOGETHER

WORKING WITH WARD

A clear process from request to closeout

1. Discuss site or project requirements. 2. Review available drawings, reports and system information. 3. Confirm scope, access and scheduling. 4. Complete agreed field work. 5. Provide findings, test records and recommended next steps as applicable.
